June	Dates to be confirmed: Extra in service day – may be 7 <sup>th</sup> June Celebration events for nursery and P7 25 <sup>th</sup> school closes for holidays

Good to have us back in school and hopefully this term will go without a hitch...

Our curriculum is still limited as per council directives but how we interpret that is dependent on how your children are coping and what motivates learning. For example, we have the flexibility to use the limited curriculum through other areas e.g. it might be that your child learns about electricity but the main elements of learning will be using literacy, numeracy and health/well being. More about the curriculum and how it is personalised to Smithton in the coming weeks.

Outdoor learning will be a key component this term. Please make sure your child comes to learn with a jacket in case the weather is not as warm as we might hope! We are hoping that we can still have as many of the end of year elements to our term just done in a different way so that the youngsters don't miss out too much.

Have a good week,

*Aileen Mackay* 19<sup>th</sup> April 2021
